### STOCK MARKET **CLOSED LOWER**

Depression Manifest From Opening in Sympathy With London.

BERLIN SOURCE OF WEAKNESS.

Selling From That Center Both in London and New York Was on a Large Scale - Bonds Showed a Yielding Tendency.

NEW YORK, Jan. 3.-The stock market to-day was unable to resist the factors working towards reaction, and closed

Let 10-day was manue to resist the Lietors working towards reaction, and closed
at lorses both for specialties and in the
railways running from I to 3 points. Depression was manifest from the opening
in sympathy with the carrier declines in
the London market, but the downward
tendency was resisted. A number of the
industrial stocks advanced in a somewhat
excited manner in the first hour and induced a sympathetic hardening of prices
all through the list.

Consolidated Gas jumped S points on the
report of its absorption of an electric
lighting company and incidental advantages to the local gas war. American
Tobacco rose an extreme 5 points, and the
Cominental Tobaccos were strong. Sugar
showed a disposition to continue its advance, and some of the iron and stel
stocks maintained yesterday's show of
strength in the group. The isolated points
of strength in the market, however,
proved entirely insufficient to sustain
prices in face of the constant dribbling of
sales for foreign account, and, therefore,
local account was sentimentally affected
by the weakness abroad. A runnor was
eigenlated that Lagysmith had capitulated local account was sentimentally affected by the weakness abroad. A rumor was circulated that Ladysmith had capitulated to the Boers. The effect was significant of what may be expected from the securi-ty in case of further reverses to the Brit-ish arms in South Africa, for traders who were long of stock hastened to take their profits in face of the possibility in-volved.

ish arms in South Africa, for frauers who were long of stock hastened to lake their profits in face of the possibility involved.

The later news of the day made it clear that the real source of the day's weakness was Berlin. Selling from that centre in London and of American securities in New York was on a very large scale. It was based on the seekly return of the German Imperial Bank, which showed a loss of \$10,500,000 in cash, a loan expansion in face of this decline of \$12,800,000, and an addition to the notes in circulation of upwards of \$32,000,000, was an exhibit of pressure for credits in Germany, which served rather to startle the financial world. Those stocks which were strokest yesterday did not entirely lose their gains of yesterday, but, in the case of Ealtimore and Ohlo stocks, the Pacifics and a number of southern stocks, large furoads were made upon values. Conditions in the local money market were undisturbed.

The bond market showed a yielding tendency in sympathy with stocks. Total sales, \$1,975,000. United States new 4's registered advanced \$\frac{1}{2}\$, and do, componing tendency in sympathy with stocks. Total sales, \$1,975,000. COTTON MARKETS.

NEW YORK, Jan. S.—COTTON—The cotton market opened weak and excited to-day, with prices 3 to 7 points lower, this decline being immediately followed by a further drop of 4 to 5 points, after which fluctuations were varied with the general tendency for a time toward recovery. The news from the South was builtsh, but cable advices were emphatically against the market. Though the claim was made that closing up or long-standing "straddles" in the English market was entirely responsible for the serious break there, the impression being quite general here that an abundance of selling orders had been sent over from this side, together with predictions for a marked change in the price movement and attitude of the South. Liverpool was a large buyer of the near months in the forenoon. Aside from conomous Walistreet selling the outside public took comparatively little interest in to-day's operations. At the close seniment was very much mixed. Prices gave way sharply in the last few minutes under very heavy selling pressure from Wall street. The market was lihally steady at net loss of 7 to 14 points.

Instead of the usual ribbon to separate the seats for the friends of the tontracting parties, there were floral arches over each alsle with prettily decorated gates to them.

The maid of honor was Miss Hattle Moore, sister of the bride, and Mr. John L. Everett, brother of the groom, was best man.

The other attendants were: Miss Bessie Everett with Mr. T. C. Leak, Jr., Miss Mand Moore with Mr. Alex. McN. Page, Miss Bert Baldwin with Mr. B. C. Eley, Jr., of Baltimore; Miss Luiu Fage with Mr. A. S. Dockery, Miss Pattle McRae with Mr. R. F. Brewer.

The ushers were Messrs. George S. Steele, P. T. Payne, of Norfolk; J. Herbert Headen, of Richmond, and Dr. R. L. Cole, of Rockingham.

Little Misses Fannie Dockery and Lena Payne Everett was ring bearer.

The exercises were begun with a solo by Miss Maude Terry, after which the bridal chorus by Lohengrin was sung by a large and selected choir, directed by Mrs. S. W. Steele. The bridal party, then marched in to the strains of Mendelssohn's wedding march, rendered on the organ by Mr. John Armistead.

The bride was beautifully gowned in white satin, en traine, with veil and carried bride's roses. The brides was eatired in white organde and carried white carnations, while the maid of honor bore a bunch of pink carnations.

The groom wore the regulation evening dress.

Weather Conditions During December

Weather Conditions During December Favorable for Winter Wheat.

WASHINGTCN, Jan. 3.—The climate and crop bulletin for December, issued to-day, says:

The weather conditions during the month of December have been generally favorable for winter wheat, reports from a majority of States indicating that the plant is well rooted, has made a vigorous growth and is in a most promising condition at the close of the month, except condition at the close of the month, except in Michigan and portions of Ohio, the late seeding in the first named State not having stooled sufficiently, while in the latter State the plant is small and weak and in poor condition for the winter.

The severe weather of the last decade may cause some damage to fields unpro-

These offices and that of the general solicitor are very slightly damaged, although they were thoroughly washed, but the solicitor's office will, in all probability. be moved to the Hanewinckel building. The department of Mr. W. S. Morris, superintendent or motive power, is also intact and doing business. For the present it will not be moved.

All the other departments of the company are so badly damaged that they are being moved out as fast as possible, and the general offices will be scattered all over the city wherever sufficient room may be found to accommodate them. As many drays as could be secured are at work moving the furniture, books and files to their temporary quarters.

The office of the Assistant General Passenger Agent, which was temporarily located in the Chamber of Commerce, has been moved back into the Pace building as its offices are in sufficient condition to carry on its work.

The offices of the Commercial Building and Loan Association were very badly damaged by the water.

The store of Muscoe H. Garnett has not been opened yet and the contents of the room are in a dilapidated state.
